

W/E: 12.5.17

On Tuesday, Year 1 enjoyed a great day out at Chester Zoo. We had a lovely time exploring all of the animals in their habitats and learning lots of interesting facts about the bones of different animals. We were even joined by rather a lot of ducks whilst eating our dinner in the sunshine.

In Science, we have been working hard on our investigative skills. As part of our Enchanted Woodland topic we have investigated tree bark and different types of flowers. We are getting much better at predicting and making conclusions using our results.
