

W/E: 14.10.16

Year 1's superhero learning over the past two weeks has focused on real-life heroes, with the children looking at significant historical figures such as Rosa Parks. We are looking forward to our real-life heroes' themed day next week, when we will explore more about the roles of a PCSO and a paediatric baby nurse. We have been busy in our Computing lessons, developing our skills in taking and editing photographs to create superhero versions of ourselves. Year 1 have really enjoyed reading our new class book, 'Supertato' and we have begun to incorporate our learning into our provision challenges. The most popular challenge in the provision area last week was at the creative table; the children had to read a set of six instructions and use the materials provided to create a play dough caterpillar.
