

W/E: 20.10.17

Last week the children in Year 1 took part in 'Heroes Day'. This themed day was based on our topic of superheroes, focusing in particular on real life heroes. We came to school dressed as police officers, doctors and nurses, soldiers, vets and fire fighters and had fun learning about the roles that these people do to help others. We tasted some different healthy foods, including lemons and berries and then used these to design and make our own smoothies.

We have also been looking at using the Doodle Buddy drawing package in Computing to import photographs of ourselves in superhero poses and then editing them to look like we are wearing superhero clothing.
