

W/E: 22.9.17

Our Maths learning this week has been focused on understanding part-whole relationships for numbers up to 10. We have worked hard to understand that numbers can be split into different parts and we have learned how to share cubes or counters to represent this. In English we have been learning all about poster adverts and we have been designing our own wanted posters for a new superhero. As part of our Superheroes topic we have been listening to some superhero music and identifying loud, quiet, long, short, high and low sounds. We even took turns to practice the different sounds we could make on some of the instruments.
