

St James' CE Primary School

Year 3 Blog

Week Ending 17th January 2020

Exciting news! Year three entered school on Wednesday to find that their classroom had been trashed. Evidence suggested that it could have been some sort of animal. When the CCTV footage was checked, it was discovered that a TRex had been in the classroom! Year 3 also found dinosaur eggs in the school's woodland area. We incubated the eggs and hatched some dinosaurs. We were then visited by two palaeontologists (dinosaur scientists) and we met Jam the dinosaur. They helped us to learn all about TRex's and how to create movies on a green screen. What a fantastic week. 😊
