## Hydrangea Class Blog

Week Ending 13<sup>th</sup> November 2020

Hydrangea Class have had a wonderful start to the Autumn 2 half term!

In Maths, we have been working hard to use methods to multiply and divide numbers. We have been doing lots of practice questions! In English, have been looking at story settings and have been producing descriptive writing about storms. We have been focusing on using direct speech for our characters. We have started looking at the Egyptians in History and have had fun this week trying to read ancient Hieroglyphics. We are looking forward to our Ancient Egyptian workshop in a couple of weeks. We have started a series of Rugby sessions in PE and are looking forward to the rest of the sessions throughout November. In RE, we are looking at the Christmas story from both the Gospels of Matthew and Luke. In Science, we have started our topic which looks at properties and changes of materials. During DT, we have researched and compared different Christmas Tree decorations and we have started practising the different

sewing techniques we will need to use to create our own  
Christmas Tree Decorations!

We are thankful to God for keeping us all safe and for being  
with us every step of the way in our learning journey. 😊

We are looking forward to having another fantastic Half  
Term!
