

# St James' CE Primary School

## Hydrangea Class Blog

Week Ending 27<sup>th</sup> November 2020

Hydrangea Class are continuing to have a wonderful term!

In Maths, we have moved onto learning about Fractions. We have been converting improper fractions and mixed numbers and have been putting fractions in order. In English, we have started to look at instruction writing. So far, we have analysed the features of instructions and have been comparing different instruction examples. To help with our learning in History about Ancient Egypt, we had an afternoon workshop where we were able to try different costumes on and hold lots of different replica artefacts. We have really been enjoying our Rugby sessions in PE. In RE, we have been comparing the Nativity stories told in both Matthew and Luke. During Science, we have been carrying out experiments to investigate how materials with different properties change. We have designed our own Christmas Tree Decorations in DT and are now ready to start creating them!

We are thankful to God for keeping us all safe and for being with us every step of the way in our learning journey. 😊

Here are some pictures of the things we have been getting up to:
