

St James' CE Primary School

Hydrangea Class Blog

Week Ending 2nd April 2021

Hydrangea Class have had a great half term back in school!

In Maths, we have continued our recap work on Fractions, decimals and percentages. In English, we have really enjoyed writing and finishing our space transmission speeches. In Geography, we have finished our unit all about water. We have learnt about: The Water Cycle, river features, uses of water, flooding and droughts and river erosion and deposition. We linked our Geography topic in with our ICT topic by creating information slides on Pic Collage. We then saved all of our collages and put them into a video using an app called 'Shadow Puppet Edu'. We recorded voice overs and now have a video showing all of our geography knowledge!

In RE, we have finished exploring Victory and what it means to be victorious. We have linked this to the Easter story. During Science, we have been learning about evolution and inheritance. In PE, we have been doing gymnastics and as the weather has been so lovely, we were able to do PE outside!

We are thankful to God for keeping us all safe and for being with us every step of the way in our learning journey. 😊
