Lupin Class Blog

Week Ending 2nd April 2021

In year 1, we have been working so hard these past few weeks.

We have been working on our addition strategies. Using make ten, counting on and near doubles, we have been learning how to choose the most efficient way to do a calculation.

In Art we have been learning all about Andy Warhol and Pop Art. We have created some digital artwork using different apps to re-create our own Pop Art.

We are enjoying our learning and are becoming more independent learners who always try our best!

We are very thankful to God for the beautiful weather this week. It has given us a chance to enjoy our playtime with our friends.
